

FEDERAZIONE ITALIANA SISTEMI QUALITÀ AZIENDALI

Knowledgeable

We harness vast amounts of data, information, and expertise to develop vital knowledge for those who rely on us.

(11st November, Milan). The whole IQNET community is celebrating its founding date. An opportunity for CISQ and our counterparts around the world to highlight our individual contribution in forming a reliable conformity assessment community, putting into spotlight our collective policies and achievements in fulfilling our network's purpose.

Leveraging on our local expertise CISQ, also through its Federates, harness vast amounts of data and information, and develop them into vital knowledge for the benefit of professionals, businesses, or support the trade, regulatory, governmental organizations in our country. Through IQNET, this knowledge additionally fuels international initiatives and projects, aiming to bring benefits to global markets.

CISQ and its Federates have been in the certification business for more than 34 of years, on top of these, CISQ has created an infrastructure to ensure reliability and recognition of people, products and services, such as training, inspection, and testing. We are a proud IQNET Member since 1992.

These long years of experience and continuous improvement are sending ripples of benefits to our global community -- in forms of trustworthy cooperation, global recognition, and knowledge-sharing within IQNET:

CISQ is a licensed partner of IQNet Academy, a global brand of training for conformity assessment related topics, recognized by IQNET Partners around the world. By training with us, each professional can receive a global recognition of compliance to what is required under IQNet Academy, manifesting his/her competences and commitment to continuous education in the field of conformity assessment.

IQNET is involved in a total of more than 60 executive, advisory, technical committees, working groups in stakeholder areas: 29 in international standardization activities (ISO); 25 in accreditation such as International Accreditation Forum (IAF), European Accreditation (EA), and Inter American Accreditation Cooperation (IAAC); five in scheme owners areas such as European Aerospace Quality Group, Food Safety Scheme Council, Smart Freight Centre; and three in relation with the quality infrastructure, such as with INetQI and UNIDO.

Through this representation, our stakeholders benefit from the information that only our country or our network can provide, as well as allow us to make a contribution to the changes in the conformity assessment industry that may impact our clients.

Lastly within IQNET, we are also active in contributing to the product, services, and tools development, as well as to harmonization of positions, that are seen to bring huge benefits to the market. CISQ is a part of IQNET Task Force on Accreditation Matters, Food Partner Panel, ESG Partner Panel, IT Partner Panel and Social Compliance TAG.

All this expertise is harnessed towards developing vital knowledge for you, and for others who rely on us and our Federates. See more in official IQNET Day 2024 website: <https://www.iqnet-certification.com/en/iqnet-day-2024>
